

# Oxford

## Pressure Sensitive

Oxford HighBright C1S is a proven choice for your prime label applications. High brightness with a blue-white shade provides the clean, crisp foundation for eye catching graphics. Oxford HighBright has been field proven in water based and UV flexographic applications in addition to standard printing formats. Combine the great surface appearance of Oxford HighBright with the high strength fiber network to ensure great converting and matrix stripping performance.

### ATTRIBUTES

- Smooth clean surface with excellent ink holdout
- Reliable product consistency
- High paper gloss and opacity
- Blue white shade with high brightness
- High strength for high speed converting and matrix stripping
- Designed for Flexographic, Offset, Gravure, Letterpress and Laser printing processes
